PERMIT CONDITIONS

1. Contractor shall have City approved construction plans and tree survey prior to commencing any site work.
2. Contractor shall acquire all other applicable City permits prior to commencing construction including grading, construction, building, etc.
3. Flood study demonstrating that the requirements of the City of The Colony's Code of Ordinances are met shall be approved prior to placing fill in floodplain or drainageways. Flood map revision shall be approved by FEMA prior to placing fill in FEMA floodplain.
4. Fill shall be compacted to 95% standard proctor density at plus or minus 3% of optimum moisture content, unless specified otherwise on City approved construction plans.
5. Adjoining property owners shall not be adversely affected by increased velocities, significantly increased flows, increased flood elevations, sediment, erosion, etc.
6. For new residential structures, the lowest floor (including basement and garage) shall be at or above the minimum finished floor elevation specified on the plat. A building permit shall be acquired prior to commencing any work on structures.
7. All utility lines shall be installed as to minimize damage from potential flooding.
8. Upon completion of construction, submit an Elevation Certificate, as-built plans, and certification from a Licensed Professional Engineer that flood proofing requirements have been met (if flood proofing is required).

SPECIAL CONDITIONS:

NOTE: Proof of financial capability and fiscal responsibility may be required by the City prior to approval and issuance of this permit.
