## **SUMMARY OF WELL DRILLING PERMIT REQUIREMENTS:**

All conditions of City Code – Chapter 12, Article V. Well Drilling, shall be met including the submission of the following information for review:

1. A detailed site plan drawing showing the exact location of the proposed well including the legal property description and boundary survey
2. A plan showing the location of all equipment on the site
3. Plans for any structure being built on the site
4. A detailed plan for the required wellhead protection required by TCEQ
5. A copy of your State of Texas water well drillers license
6. A letter from the owner of the well stating the purpose of the well and information on the number of days per year of expected production of pumping

Per section 12-92, after construction of the well, complete drilling information, boring log and a complete chemical analysis of the water shall be furnished to the City at the completion of the well.

Per City Code, Section 12-83 “Extensions of lines and appurtenances to adjacent properties is expressly prohibited.” This applies to any extension of facilities over any property line even if the ownership is the same unless the property is platted into one lot.
