Traffic light out at Paige and North Colony

THE COLONY, Texas — The traffic light at the intersection of Paige Road and North Colony Boulevard is currently malfunctioning due to a faulty power conduit.

Given the age of the equipment, it will take a little time to complete the repairs. The traffic light is estimated to be up and running again by midday, Wednesday, March 18.

In the meantime, three-way stop signs have been placed at the intersection. Thank you in advance for your patience.
