

PRESS RELEASE – Feb. 23, 2017
Environmental Services: 972-624-3131

Free compost now available year-round

THE COLONY, Texas — Many residents are likely accustomed to the availability of free mulch in the first quarter of each year resulting from the city's annual Christmas-tree recycling program. This year, however, the Christmas trees have been taken to a facility in Dallas and turned into compost. As with the mulch in years past, the city's current contract with our solid waste services provider includes the availability of free compost all year-round.

The compost site is at the south end of the Public Services parking lot off of East Lake Highlands Drive, across from the Animal Shelter. Signs are posted directing residents to the site. Compost is available first-come, first-served. Please bring your own containers. The site was recently replenished with compost and will continue to be replenished on a periodic basis throughout the spring, summer and fall.
