Traffic switch on southbound Main Street set for May 10

Left-turn lane at northbound Ridgpointe to close for two months

THE COLONY, Texas — As part of an effort to keep residents informed, officials with the City of The Colony are in continuous contact with representatives from the Texas Department of Transportation regarding the progress of the Main Street Widening Project.

In order to continue that progress, TxDOT officials have recently advised the city of:

- **full closure of the northbound dedicated left-turn lane at Ridgpointe Drive at the intersection with Main Street/FM 423** starting Monday, May 8, and lasting approximately two months. Motorists will still be able to turn left onto Ridgpointe but they will not have a protected left-turn arrow during this closure; and,
- **traffic switch for southbound traffic on Main Street/FM 423 from the northern city limits to Overlake Drive** starting Wednesday, May 10. Traffic will be moved onto the newly paved lanes to the west over the bridge at Lewisville Lake.

During Main Street reconstruction, the Engineering Department posts updates and information regarding the overall progress of this project at <http://thecolonytx.gov/Resident/RoadRepairs.html>, including when and where specific work will take place. In addition, updates can be found on the city's social media and in the bimonthly electronic newsletter. If you have additional questions, you may email Director of Government Relations Brant Shallenburger at bshallenburger@thecolonytx.gov or call 972-624-3108.
