

REPLAT CHECKLIST

Acceptance of the Replat Application: *The Replat application shall be reviewed for completeness in accordance with this checklist before it is accepted by City Staff.*

Failure by the applicant to provide required information or obtain a waiver from the Development Services Director constitutes grounds for refusal of the replat submittal for processing.

Amending the Public Record: *A replat is a legal document that shows any changes to an already platted property. Lots that are replatted are designated with an "R" following the lot number. Subsequent changes to the lot are designated with a number following the "R" (Lot 1, Lot 1R, Lot 1R1, Lot 1R2, etc.) A replat is required to create a new lot or lots, combine or relocate lots, and to remove, relocate or add fire lanes or other easements from a recorded plat. The original lot lines and easements will be "ghosted" on the replat, illustrating the changes made.*

Public Hearings for Replats: *If a proposed replat requires a variance, a public hearing must be held by the Planning Commission and notice given prior to the 15th day before the date of hearing by publication in an official newspaper by written notice to the owners of lots with 200 feet of lots to be replatted. If the replat does not require variance, written notice by mail will be given to owners of lots with 200 feet of replat by the 15th day after a residential replat is approved.*

This checklist is provided to assist developers and design professionals in the preparation of submittals for development review and is intended to be a guideline for what is needed to facilitate the review. Additional information may be required, as indicated in your Pre-Development meeting or upon review of the plans.
